HEALTH OFFICIALS TO IMPROVE CITY'S SANITATION.

August 5, 1905.

To the Citizens of Frankfort: Whereas the open door policy toward the South inaugurated by the State Board of Health of Kentucky has made it necessary that the greatest precautions for the protection and preservation of health be taken, it is the desire of this Board that the citizens of Frankfort and vicinity give us their hearty co-operation in our efforts to bring about the most perfect sanitary condition possible in this city.

Therefore, the citizens are requested and directed to take immediate steps to remove all nuisances and sources of disease, cut all weeds from their premises, disinfect outhouses, drain or empty all places that may become breeding grounds for disease germs and lend every assistance possible to preserve the highest state of sanitary welfare in our city, thereby inducing such greatly needed health reforms as will not only prevent yellow fever from appearing among us, but will lessen typhoid, diphtheria and other diseases that are prevalent at this season of the year, and which are the cause of such a large and needless death rate every year.

The city ordinance against throwing rubbish, refuse, trash, etc., about the streets and in alleyways will be rigidly enforced. This is a most fruitful source of deadly disease germs and should be guarded against with all vigilance.

A special policeman has been assigned by the Mayor to assist the Health Officer in making a house to house inspection, and his orders as to sanitation must be followed to the letter under penalty of prosecution. By order of the City Board of Health of Frankfort, Ky.

SHOOTING AT HICKMAN HILL.

The colored contingent held a basket meeting at Hickman Hill, on Sunday last. Two of the "cullud gummens" became involved in a row and the inevitable gun play was the result. Ben Turner was shot by Lewis Thompson, and he, in turn, was shot by Turner, and a bystander by the name of Wheeler was shot in the foot. Turner's wound was a very serious one, the ball having pierced the right chest. Thompson's wound was in the groin, but was luckily not dangerous.

The shootists had their wounds dressed by Dr. Goodrich and were lodged in jail by Deputy Sheriff Pierce.

After long years of suffering from the effects of wounds received in battle, while serving in the Southern army, Capt. Gerviah H. Stone, of Louisville, passed away on Thursday. Capt. Stone was formerly clerk at the local penitentiary.

He was a brave, gentle and kindly man.

He leaves two daughters (Mrs. Ed. George, of this city, and Mrs. Ira DeHaven, of Louisville), and three sons (Messrs. Edward, Robert, and Gervias, Jr., of Louisville), to mourn his death.

His passing away was a blessed relief from suffering.

The remains were brought here yesterday and buried in our cemetery.

SPLENDID RAINS.

On Sunday, Monday and Thursday, of this week, we were blessed with gentle, "soaking in" rains, which caused the farmers to smile again and the common people to bless the "Giver of all Good."

RETURN FROM VACATION.

Rev. Wm. Crowe, pastor of the Second Presbyterian Church, returned Thursday from Winona Lake, Ind., where he was spending his vacation. He will fill his pulpit to-morrow.

Rev. M. B. Adams, D. D., pastor of the First Baptist Church of this city, has returned from his month's vacation, spent in Fleming and Mason counties. He will fill his pulpit to-morrow.

YELLOW FEVER SITUATION.

The whole country is looking, with unabated anxiety, at the situation in New Orleans, La., with regard to the yellow fever. The total number of cases has reached about 700 or over, with a total death rate of about 120. While the death rate is low, yet the outlook is not favorable.

The disease, at first, was confined to the French section of the city, below Canal street, but it has steadily worked its way into the better quarters.

Archbishop Chappelle is one of the most distinguished of the victims.

The Federal government has taken charge of affairs, and, strange to say, has found that quite a number of physicians, notwithstanding the stringent laws on the subject, have concealed the fact that they had yellow fever patients thus hindering the spread of the disease. This accounts for the apparently large number of new patients developed.

With the energetic measures the government is enforcing, it is hoped to stay the ravages of the dread destroyer, as was done at Havana and Santiago, Cuba.

FRANKFORT, AUGUST 12, 1905

NEW YORK COMPANY
AWARDED CON-
TRACT.

The Board of Capitol Commissioners, after two days consideration of the large number of bids to the construction of the new Capitol, awarded the contract to the General Supply and Construction Co., of New York, at the price of \$880,000, the work to be completed in two years.

The bids ran all the way from the contract price, as above, to \$1,441,000, distributed among some twenty-five bidders.

Bids for portions of the work were not considered.

Bedford, Ind., stone is the material to be used, the Kentucky stone being found more expensive than it is.

Of course, now there will be a number of subcontractors, under the principal, but the State will have no dealing with them directly.

ITEMS OF IMPROVEMENTS.

Mr. Frank D. Clark has awarded the contract for his new house. Mr. W. L. Graham was the successful bidder.

Mr. Eugene Wallace is building a brick cottage on his North St. Clair street lot.

Mrs. Margaret Schlosser has purchased from Mr. Sam Watson and wife a house and lot in Thorn Hill for \$1,600.

Miss Ruby Macklin is building a brick and frame cottage on Arlington Heights, East Main street. Mr. R. A. Browner contractor.

Owing to the large number of buildings being erected in this city, it is almost impossible to obtain the services of a mechanic for small jobs.

NEW ROAD SUPERINTENDENTS.

The following new road superintendents were appointed this week:

Price Mitchell, road No. 86, leading from bridge near O'Bannon Sudduth's to the Parineau Quite place.

John Bradley, road No. 65, from Bridgeport and Benson pine, near James Riddell's, to Big Benson, at railroad.

William Heaton, road No. 83, from Lawrenceburg pike to Cardwell's ferry.

COUNTY COURT DAY.

Monday last was county court day. Notwithstanding the inclement weather of the morning there was a large crowd in the city.

Quite a number of cows and calves, horses, mules, and sheep were sold, though the prices realized on every thing except horses was rather low.

There is a steady demand for good saddle and buggy horses at very remunerative prices.

Those having good horses can always find a market for them in this city.

MONDAY'S BLAZE.

At 6:10 on Monday afternoon, an alarm from box 17 called the department to the residence of Mr. J. K. Knight, on the corner of Fourth Avenue and Conway streets, where a spark from a defective flue caused damage to the roof of the kitchen to the extent of \$15 or \$20. Prompt assistance from neighbors prevented a more serious damage.

Dr. Miles' Nervine
Built Up My

Shattered Nerves and
Gave Me an Appetite.

From the millions of people, who today suffer from nervousness and weakness, a large percentage trace the cause back to disease LaGrippe. It is a germ disease, and makes a direct attack upon the nerves, putting an extra load upon them at all times. It is at the lowest ebb. If a stricture has left you with a shattered nervous system, with loss of appetite, lack of energy, insomnia, frequent headaches, and all the tensions that you strengthen the weakened nerves with Dr. Miles' Nervine. It will undo all that grip has done, bring back appetite, rest and sleep, and restore the nervous system to you?—Owensboro News-Herald.

"I want to write this testimonial for the benefit of those who have suffered from the dreaded disease—LaGrippe. I suffered several weeks with it, and during that time I tried to get rid of it in any way, shape or form (I suffered almost death) and finally my daughter recommended Dr. Miles' Nervine to me. I can afford to say that the first day I felt better than in weeks. It gave me relief, built up my shattered nerves and gave me a splendid appetite. I can assure you, if you have suffered from LaGrippe will find this will benefit you poor sufferer I remain—MRS. GEORGE H. HALL, Jackson, Tenn.

A NEW PLAN BY WHICH THE BURLEY DISTRICT CAN CONTROL PRICES.

The farmers of Owen county have hit upon the only sensible, feasible plan to control the price of burley tobacco. That plan is simply the cutting out of the 1905 crop. At first blush this may seem to some a suicidal policy, but a simple calculation will prove its wisdom. If no burley tobacco is grown in 1906, the 1905 crop will bring as much as both. There is every prospect that the present crop will excel in quality and quantity any previous yield in the last decade. The moment it is saved and preparations are begun for the 1906 crop, the tobacco trust will lay out its plan of campaign and sit back in its den to gloat over the millions of fools who are willing to contribute to its already overflowing coffers. It is time for the farmers to quit working for the tobacco trust.

As long as the market is supplied with an abundance of the weed, so long will the farmers continue at the mercy of the hungry octopus. Its greed has known no bounds. It

has grown to such mighty proportions that every branch of our commercial life flows into its avaricious and greedy stomach. This was shown by the failure of the Growers' Association in 1904. The very

money that was promised by Eastern capitalists to finance the deal was promised to Trust money. They promised just enough to keep the farmers in a state of expectancy.

The plan was to make them pitch a big crop for 1905. Then came a hitch in the negotiations. New

conditions were imposed as fast as past agreements were fulfilled and finally came failure. Every farmer

knows the consequence of that failure and feels its effects. The price of tobacco took a sudden leap downward.

Confidence passed from the grower and sat, demon-like, upon the head of the trust. It was a disheartening, hopeless, situation for the producer. Pending negotiations, farmers everywhere held their tobacco at a handsome price.

When the failure came they fell over each other in their scramble to sell at any price. The Continental Tobacco Company never

planned a more successful and diabolical coup.

The present plan of the Growers' Association is deemed impracticable, if not wholly impossible.

In the first place it involves an expenditure of \$1,500,000 by the farmers for capital stock. "Eastern

capitalists" are to furnish the rest. This plan can never enlist the confidence of the people, and without this, failure will attend its every step.

Owen County farmers have

determined, and wisely so, to pull out of the old organization.

The plan they suggest is one that involves no expense. No appeal has

to be made to "Eastern capitalists." Their dealings are all with

themselves and among themselves

and no traitors are to be allowed in the camp. If the plan is adopted success is bound to attend it. Failure could not possibly come. A certain amount of tobacco must be had and had at any price. Farmers could demand that price and the manufacturers would be forced to give it. The plan furnishes a great opportunity to farmers. Their farms could be rested and improved for one year, their attention turned to grass, grain and stock raising and their bodies rested from the lavish, wearing strain that a tobacco crop always occasions. The question is: "Will the farmers do it?" If seventy-five per cent. of them say they will, and stick to it, "the world and the fullness thereof" is theirs. It costs them nothing to try. The plan feasible. It is practicable, inexpensive and certain. Cotton growers in the South have tried it and it proves a success. Why not you?—Owensboro News-Herald.

IN MEMORIAM.

Mrs. Martha Rodgers passed quietly away last Saturday morning at 4:15 at the home of her daughter, Mrs. W. J. Scottow, after an illness of four months.

She was 78 years of age, being the oldest member of the Indian Fork Baptist Church in Shelby county, having united with that church in early childhood.

She was a faithful Christian. She leaves two sisters and a brother, her husband having preceded her to the grave a few years ago, and a daughter-in-law, Mrs. Martha Rodgers. Truly a good woman has gone to her reward. "She rosteth from her labors, and her works do follow her."

The funeral services took place at the Indian Fork Church last Sunday morning and she was laid to rest to await the resurrection morn.

ADJUDGED INSANE.

One Walker Bradshaw, a colored convict, sent up from Jessamine county for twenty-one years, for manslaughter, was adjudged of unsound mind in the county court, on Tuesday, and ordered taken to the Eastern Lunatic Asylum, at Lexington.

Bradshaw's hallucination is that some one is trying to chloroform him. He was taken to Lexington Wednesday.

State College of Kentucky

Lexington, Kentucky.

The Agricultural and Mechanical (State College) of Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Physical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, and other courses, the extent of which varies over four years and leads to a master's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

Counties and cities receive tuition, room rent in dormitories, fuel and light, and if they remain ten months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern.

The Legislature appropriated \$60,000 for a college home for young women and \$30,000 for drill hall and gymnasium for men. Both buildings are completed and in use. Military tactics and science are taught, and for the first time in the Commonwealth.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in the ability of the College to supply.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, agriculture, instruction in science and in arts.

The State College of Kentucky, though bearing hitherto the title of "college," is the only institution in the Commonwealth doing, in any proper sense, university work.

The completion of the College home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including bath, and is well suited for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to young women of obtaining a thorough education in classic, modern language, literature, science, mathematics, logic, metaphysics, history, and political economy.

No other institution in the State offers advantages for education of women at all comparable to those offered by the State College of Kentucky.

When one gets Ballard's Obelisk Miles' M. K. M., Old John or Marguerite Flours they get a Flour made from sound, dry wheat, as the mills at which these flours are made are located in sections so they are enabled to draw their supplies of wheat from States that harvested and threshed their wheat and put it on the market in first-class shape, while local mills are compelled to use wheat that was harvested and threshed damp. Wheat once wet can never be dried to make first-class flour. It will pay those wanting good flour to ask their grocers for the above brands. Call me before buying and I will tell you all about it.

ATTENTION.

Those desiring to purchase a small farm well located and in good condition are referred to the advertisement of Miss Lizzie Hahn, in to-day's paper.

READ IT.

Dr. G. W. Norman practiced medicine thirty years at Henderson and Union counties, enjoying a large and lucrative business. Where he is best known he is recognized as a physician of superior qualification, being a most successful practitioner, especially so in his specialties, having cured many who had been pronounced incurable by eminent doctors. His advertisement appears in to-day's paper. He has a fine suite of eight rooms in the Farmer's Flat, and is prepared to care for patients from a distance.

CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overdone. The poor patient, and the rich patient too, can do much better at home by proper attention to food digestion, and rest, than by German Syrup. Free expectation in the morning is made certain by German Syrup so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and exhaustion due to coughing, the greatest danger should you be able to go to sleep. You will be well advised to take German Syrup liberally and regularly. Should you be able to go to sleep, you will be well advised to take German Syrup. Trial bottle, 25c; regular size, 75c. At all drug-gists.

HOME ENDORSEMENT.

Hundreds of Frankfort Citizens Can Tell You All About It.

Home endorsement, the public endorsement of Frankfort, will be evidence beyond dispute for every Frankfort reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in faraway places. Read the following:

Mrs. Anna M. Kavanaugh, residing at 100 Main and Todd Street says: "I received a number of different medicines I took for a number of years past trying to find relief for intense suffering I endured across the small end of my back, causing great pain in my kidneys. I became, in fact, about tired and discouraged in my efforts to find help. At one time my condition was so bad from congestion of the kidneys that my doctor said my life would not go better, but continued to suffer with the dreadful misery in my back and an annoyance and distressing weakness of the kidneys. I read the spirit of yourimonials on Doan's Kidney Pills in your papers and this induced me to make one more effort. My grandson procured a box for me at J. W. G. drug store, and to my pleasant surprise, they gave me immediate relief, and continuing the treatment I found myself remarkably improved."

City Physician, Dr. J. RESOLUTIONS OF RESPECT.

At the meeting of the Franklin County Medical Society Saturday afternoon, August 5, 1905, a committee was appointed to prepare suitable resolutions on the death of Dr. Joseph Samuel Demaree, which occurred in Shelby county, near Bagdad, on the 4th of August, at 1 p. m., of a lingering case of typhoid fever, continuing for five weeks. Dr. Demaree was born in Shelby county in 1885. He was educated at Memphis and graduated in medicine from that city in 1888. He began the practice of medicine in Mackville, Washington county, where he practiced for eight years, and one year in Danville. From those points he came to Frankfort in 1902, where he built up a large and successful practice. His suavity of manner, retiring and unassuming disposition, won for him a host of personal friends and a confiding clientele.

Dr. Demaree was married in 1889 to Miss Trent, of Washington county, by whom he had one son, now living, aged fourteen years, and a son who died in infancy. His wife died in 1898, since which time his whole affections and happiness were centered in the rearing and care of that surviving son, whose manly character evidences a paternal care that is most beautiful. Dr. Demaree was buried Sunday, the 6th inst., at Willisburg, Washington county, beside the wife of his young manhood and sleeping babe. He leaves three brothers, Dr. O. B. Demaree, Henry and George Demaree.

His illness was of that marked type of typhoid fever which offered no hope from its first invasion, developing a continuous hemorrhage, which neither skill nor affectionate care could control.

Consciousness remained with him until the last moment, and he was fully aware of the very serious condition, and in great measure was the consultant and director of treatment in his own case.

He was a Mason of high degree; Master of the Blue Lodge at Willisburg until he came to Frankfort, which lodge conducted the burial services, assisted by a committee of brothers from Hiram Lodge, No. 4, Frankfort, who accompanied the remains to their last resting place.

Blessed is the consolation that the setting is always followed by the rising sun, and that he now enjoys the rising of that sun from the great white throne.

A life long friend and acquaintance said to the writer of this memorandum that Dr. J. S. Demaree was the most moral man and the cleanest character he has ever known. He was truly a man without guilt. His professional brethren can bear testimony that he was punctiliously ethical in his relations with his brother physicians; charitable, courteous, and above all and at all times, a gentleman.

Resolved, That this memorial be spread on the records of the society; that a copy of the same be sent to his family, and the Frankfort papers be requested to publish the same. Also that the secretary of the county society furnish a copy to The Kentucky State Medical Journal.

Adopted,

U. V. WILLIAMS,

AN IRIDESCENT DREAM.

This is a topsy-turvy world. One man is struggling for justice and another is fleeing from it. One man is saving to build a home and another is trying to sell his less than cost. One man is spending all the money he makes in taking his girl to entertainments and sending her flowers in the hope of eventually making her his wife, while his neighbor is spending all his gold trying to get a divorce. One man escapes all diseases, a man is heir to and gets killed in the railway. Another man goes everywhere without being hurt and dies of the whooping cough. Such is life.

HANDSOME AND VALUABLE CURIOS.

It was our pleasure, recently, to visit Capt. Garnett D. Ripley and family, at their beautiful home in Oldham county. Those who know Capt. Ripley are aware that he has at different times, had a number of business ventures in Honduras. While in that country he has accumulated quite a large quantity of curios of different characters, which are, many of them, of great character and very valuable.

In fact the Captain's home is stocked with articles of virtue which afford a visitor much unalloyed pleasure in examining.

We desire to return our thanks to these good people for a very pleasant and enjoyable visit.

PEA RIDGE.

Protracted meeting closed at Chouteau's Christian Church last with eleven additions, seven by baptism and four by letter.

The cottage belonging to Mr. Sam Tracey caught fire, in some unknown way, and was burned to the ground. It was uninhabited at the time.

We understand there will be a wedding in the near future, on the Ridge. Maybe two—a double wedding is always interesting.

We have nice new seats in our schoolhouse this week.

An excellent and well attended school is being taught on the Ridge this year.

Two young men strangers, had the misfortune to break a wheel on the Ridge, recently. A wheel was furnished them by a boy, who was kind, but they have not fulfilled their promise of returning it. It does not pay to be obliging.

Mrs. Ella Pieres, of Chouteau, who has been quite sick, is much better.

Mr. James Tracey and daughter, Mrs. Ellen Dennis, are also much better.

Mrs. Chambers, of Frankfort, was the guest of her son, Mr. Walker Chambers, this week.

Mrs. Hineatt and sister, Mrs. Chambers, were also guests of their brother, Mr. W. Chambers, this week.

Mr. John Edge, Jr., is in Lexington on business.
